Emergency Use Authorization

The FDA has made the COVID-19 vaccine for the Pfizer, Moderna, Johnson & Johnson, and Novavax available under an emergency use authorization (EUA). The EUA is used when circumstances exist to justify the emergency use of drugs and biological products during an emergency, such as the COVID-19 pandemic. This vaccine has not completed the same type of review as an FDA-approved or cleared product. However, the FDA's decision to make the vaccine available under an EUA is based on the existence of a public health emergency and the totality of scientific evidence available, showing that known and potential benefits of the vaccine outweigh the known and potential risks.

Consent for Vaccination and Administrative Billing

I have been provided and have read, or had explained to me, the information sheet about the COVID-19 vaccination. I have been given an opportunity to ask questions which were answered to my satisfaction. I understand the benefits and risks of the vaccination as described.

I request that the COVID-19 vaccination be given to me (or the person named above for whom I am authorized to make this request). I understand there will be no cost to me for this vaccine. I understand that any monies or benefits for administering the vaccine will be assigned and transferred to the vaccinating provider, including benefits/monies from my health insurance plan, Medicare, Medicaid or other third parties who are financially responsible for my medical care. I authorize release of all information needed (including but not limited to medical records, copies of claims and itemized bills) to verify payment and as needed for other public health purposes, including reporting to applicable vaccine registries. I authorize payment be made directly to ACPH for medical services provided to me or my family members. I authorize the release of any medical or other information necessary to process this claim.
