The Combined Allen County General Health Districts Regulation Governing the Connection to Sanitary Sewers requires the inspection of the plumbing systems prior to the connection to a sanitary sewer to ensure sanitary wastes are directed to the sanitary sewer and clean waters are diverted.

If improper connections are found, you will be directed to make correction(s). A plumbing permit may be required to make necessary correction(s). A plumbing permit may be obtained by the homeowner or registered plumbing contractor.

INSPECTION REPORT

The following plumbing fixture(s) are improperly connected to a discharge point other than the sanitary waste.

<input type="checkbox"/>	Kitchen Sink
<input type="checkbox"/>	Laundry tub/washing machine
